Planet Telex Played the Owl, Jan. 4. While I missed them, I caught an excellent set from “Planet Telex’s cousin,” “Commander

Xander.”

He played an up beat set of acoustic rock, including what sounded like a cover of Adele’s “Rolling in the Deep,” plus Cee Lo Green’s “Fuck You,” in addition to plenty of his own.

He was joined by a drummer on stage mid-way though his set.

He had a very strong, grunge- era influenced voice.
